## SUMMARY

MERN Stack Developer with 1 year of hands-on experience in developing scalable, responsive web applications using MongoDB, Express.js, React.js, and Node.js. Proficient in building modern front-end interfaces with React.js and Next.js, and experienced in mobile app development using React Native. Skilled in writing clean, maintainable code, debugging complex issues, and collaborating in agile team environments to deliver high-quality solutions. Passionate about learning emerging technologies and enhancing user experience through creative and efficient development practices.

## PROFESSIONAL SKILLS

Design Understanding

Team Collaboration Problem Solving

Visual Design

## TECHNICAL SKILLS

HTML, CSS, React.js, Next.js, Node.js, JavaScript,

React Native, MySQL, REST APIs, Git, GitHub,

MongoDB, UI/UX Design, Python

## PROJECTS

- **TMU Clone:** A dynamic Web application. Made with HTML, CSS for real-time updates and Material-UI for sleek design.
- **Lion tech:** A Next.js based web for my client. They use react technology for seem less experience without refreshing web pages.
- **TheUsSoftware:** A school-based personal project developed in a group using Next.js, showcasing my teamwork skills and ability to build dynamic portals
- **USfriend:** I was responsible for designing and developing the entire front-end of the USfriend mobile application using React Native. Focused on creating a responsive, intuitive, and user-friendly UI that enhances the overall user experience.

## EDUCATION

- ❖ **Bachelor of Computer Applications (BCA)** (2023-Present)  
Teerthanker Mahaveer University, Moradabad (UP).
- ❖ **Senior Secondary (12th)** (2020- 2021)  
Government Inter College, Pakbara Moradabad (UP).
- ❖ **High School (10th)** (2018- 2019)  
Government Inter College, Pakbara Moradabad (UP).

## EXPERIENCE

1 year of front-end development experience designing and implementing user interfaces for a school portal at [TheUsSoftware.com](https://TheUsSoftware.com). Built responsive and interactive UI using Next.js, and Tailwind CSS to support key features

such as student registration, login, profile management, and document upload. Integrated securely with RESTful APIs built on Node.js. Ensured smooth user experience with form validations, routing, and session management.

I created the front end of [lionglobal.in](https://lionglobal.in), our portfolio website, using React.js and Next.js, focusing on clean UI, responsive design, and smooth user experience to represent our work professionally.
